Arc Publications. Paperback. Book Condition: new. BRAND NEW, Finite Formulae and Theories of Chance, Wioletta Greg, Marek Kazmierski, One hundred years since the outbreak of the First World War, Wioletta Greg traces the seams of a family history through a hundred years of life, death, love and tragedy with passion and humour. From the lives of her grandparents in early twentieth-century Poland, through two world wars, life under Communism and the subsequent liberation, to her own experiences as a migrant living on a small island off the coast of Britain, this collection serves as both a fitting personal testament to a family that survived, and as a compelling document of a century of European history. Wioletta Greg has published several volumes of poetry, a collection of short prose poems and, most recently, a debut novel, *Guguly* (Wydawnictwo Czarne, 2014), which has already been hailed as the 'discovery of the year' by critics and readers alike. Marek Kazmierski's attentive and nuanced translation of this, her first book-length publication in the UK, gives readers of English a chance to experience this powerful work for the first time.
