GUIDELINES FOR THE IMPLEMENTATION OF A WIRELESS LAN

By Wonga Linda Ntshinga

VDM Verlag Jan 2009, 2009. Taschenbuch. Book Condition: Neu. 220x150x4 mm. Neuware - The faculty of Information and Communication Technology at Tshwane University of Technology is faced with the decision by the Senate of TUT to move the faculty to the Soshanguve learning site (Schoeman, 2005). This move will impose strain upon the current limited resources of the faculty on the new campus. Thus the study suggests the need for guidelines for the implementation of a Wireless Local Area Network for the learners to learn anytime, anywhere, and work without disruption in the Soshanguve learning site. An investigation into a WLAN based infrastructure will be an advantage for the faculty in respect of ease of installation, low installation, and maintenance costs. A non-empirical research using a qualitative approach with a literature review and observation methods were used. The nature of the research process was to produce guidelines for the implementation of a secured WLAN for the learners in the faculty using an analytical form of reasoning. The study confidently maintains that WLAN will assist learners of the faculty to learn anytime and anywhere. This could lead to an increase in throughput rates for the faculty. 72 pp. Englisch.

Reviews

I actually started looking over this publication. It really is rally interesting throgh studying period. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Dana Hintz**

Good electronic book and valuable one. It really is basic but unexpected situations in the 50 percent in the pdf. You wont really feel monotony at at any moment of your time (that's what catalogues are for concerning when you ask me).
