SPIDERS IN THE SUN (PAPERBACK)

Createspace, United States, 2012. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.The adventures of a young boy who is not Huck Finn. Also, a dystopian novel set in the imaginably near future, and exhibiting a roughly equal contempt for everyone's favorite utopian ideologies. Or, if that sounds a bit dense, how about a gentler, kinder sort of holocaust in which no one gets gassed and everyone gets free food and free therapy? A loving look at popular culture. A satire - cynical observations raised to a poignant art form. A book within a book - a personal history written by an ex-school teacher and self-appointed chronicler of the collapse of civilization (deceased grandfather to the aforementioned non-Huck-Finn boy) who turns out to be an astute observer of human nature. The old man is a crank, in other words. A story of global warming run amok. A novel, incidentally, with a far greater proportion of complete sentences than this description. The book contains a large number of deaths, but none of them are either mysterious or investigated by detectives with interesting quirks. If you are looking for a mystery you'll probably be happier looking elsewhere. There is only a miniscule amount of sex, neither enough to satisfy the prurient nor to offend anyone who doesn't actually like being offended. There isn't much gore to speak of either. There is a non-judeo-christian quasi-supernatural being, but he turns out to be just a misunderstood natural phenomenon. Nothing blasphemous enough to merit a fatwa. No vampires, zombies, etc. There are some very dangerous clowns. Even one lethal clown. If you have a phobia about clowns, I would recommend you buy an appropriate self-help book or some herbal sedatives as...
