Epigraph Publishing, United States, 2014. Paperback. Book Condition: New. 203 x 127 mm. Language: English . Brand New Book ***** Print on Demand *****. Truly a book unlike any other, Simple Physics successfully marries science and spirituality, physics and the Bible. It is written with the firm conviction that the universe is not an accident but the creation of an almighty God named ??? (Yahowah). He was joined in creation by his only begotten son, named Michael. The name is in the form of a question, the first question ever asked-- Who is like God? We are all helped to answer that question by this little book. Romans 1:20 states, His invisible qualities are seen from the world's creation onward, because they are perceived in the things made, even his eternal power and Godship (the kind God he is), so that they are inexcusable. No excuse exists for not seeing God's hand in nature. Simple Physics reveals how nature works. Based on the simple postulate that darkness is not the absence of light but its opposite, Simple Physics builds on that to explain how gravity works, how light and matter move, what mass (energy) is, what time is, and culminating in the theory of everything. Light (matter) is pretty wonderful stuff but there's something to be said for darkness, too. Ultimately, light and darkness make up everything--the nuts (light) and bolts (darkness) of the universe, working together. Simple Physics is the first and only book to explain this in straight-forward terms, drawing on clues contained in the Bible. About the Author: At the time of this writing, James Jacobs cannot be described as an individual. He is part of a team, united as one flesh with a supremely intelligent woman, his second wife--Karyne Jacobs. She is enlightening him...
